

I feel as if you are ripping out my heart as I depend heavily on K-LOVE for peace of mind through the music that is played on that station. I believe that if K-LOVE was to be displaced by the LPFM broadcaster providing other programming that this listening area will be under an extreme moral decay. K-LOVE provides a positive way to conduct one's life by listening to the words of the music they provide. A lot of the music provided by other stations depict committing a wide variety crimes , rape, murder, theft, etc. I feel that K-LOVE helps in keeping these things in check.
